

John Andrews Seminar

Chronic Fatigue Syndrome

Chronic Fatigue, Post-viral Fatigue, Inflammation & Modern Iridology

This dynamic seminar in London, with international lecturer John Andrews, will feature much of his rich experience with thousands of CFS patients around the world. The seminar will lavishly cover much of the information from John's forthcoming book on *Chronic Fatigue Syndrome* & include the latest modern iridology research findings, therapeutic protocols from herbal medicine, homotoxicology, nutrition, through to emotional & stress dynamics in CFS, which tests & clinical signs to identify & how to bring these factors involving the endocrine, immune & nervous systems together.
